Microfiber is a development in cleaning technology that has transformed the way people carry out their cleaning tasks.

Removes grease, dust and dirt with ease.

Cleans glass and mirrors to a smear free shine. No need for chemicals.

Cleans using just water and can be used both wet or dry but for best results used damp.

Bringing benefits to your cleaning process across a range of different tasks, it's an ideal solution for effective cleaning.

**MI90 450G KENTUCKY MOP**

- Absorbent Kentucky mops for large floor areas.
